

Lasse Martikainen

Game developer with many talents

EDGES

- Independent and responsible
- Fast learner
- Perseverance and good concentration
- Creative
- Problem solver
- Good with different types of people

GOALS

I want to develop myself to become a versatile game developer. I'm interested in work where I can use both programming and visual art skills, for example creating and implementing visual effects.

SKILLS

- **Programming**

2025 – present, intern and freelance at Icy North Games

2022-2025, BBA in game programming

A solid base with excellent grades of C-language group (C#, C++, Java) programming gained from school. Lots of work with Unreal Blueprints at Icy North Games. Game engine experience is strongest with Unreal Engine, some familiarity also with Unity and Godot.

- **Art**

2025 – present, visual effects and UI at Icy North Games

2024 – present, digital 3D modeling and animation

2016 – present, sculptor [self-learned]

EDUCATION

6/2025 Degree Programme in Business Information Technology BBA, [Karelia UAS](#) (Game Programming)

12/2011 Bachelor of Natural Resources, [Häme UAS](#) (Cultivation in Greenhouse)

LANGUAGES

Finnish	native
English	excellent
Swedish	fair
German	basics
Russian	basics

Excellent skills in physical sculpting. Koli Sculpture Garden and several wins from stone sculpting competitions can be seen as proof. I have been able to use the same skills of three-dimensional conceptualization and sculpting also in digital art. I have experience in 3D modelling, rigging and animation in Blender and I have been working with materials, user interface widgets and Niagara visual effects in Unreal Engine.

- **Leadership**

2011 – present, business owner

I have run my own garden business Kolin Puutarha for more than a decade. Since then, the company has expanded to include tourist attraction Koli Sculpture Garden and florist's shop Kujankukka. The company has two permanent employees and about 10 seasonal workers. I have gained competence especially in management, people skills, marketing and communications.

- **Gardening**

2011 – present, business owner

2008 – 2011, Bachelor's degree in horticulture

since 1987, growth environment

I have worked in my father's greenhouses since childhood. I gained more knowledge from my degree in horticulture. In gardening, I'm most familiar with flower cultivation in greenhouses and park management and landscaping.

- **Library and boardgames**

2020 – present, part-time, the city of Lieksa

I have been a part-time librarian in Koli. At the same time, I keep a boardgame club for the local children. I also like to play boardgames on my free time.

- **Community**

I work in two local associations in order to help my community. Currently I am the president of one and the treasurer of another.
